

This week at the farms

Catch up on the highlights of the past week!

About Us

Rimon Farms develops and operates therapeutic agricultural and urban centers across the Negev, serving a wide range of populations through hands-on work, responsibility, and community.

We specialize in agriculture and employment as tools for healing and rehabilitation. Our approach combines meaningful physical work, evidence-based therapeutic practices, and professional support, grounded in the belief that productivity, routine, and working the land are themselves part of the recovery process.

Through cross-sector partnerships and community-based action, we provide support for at-risk youth, individuals coping with post-trauma, and communities across the Western Negev.

Campaign Launch Event for the Holit and Nahal Oz Farms

Last week, we launched our **"We're Not Done Yet"** campaign to establish the **Holit and Nahal Oz Farms.**

We want to thank all of the partners and supporters who are accompanying us on this important journey, and invite each of you to participate and take part before the campaign concludes this coming Friday at 2:00 PM GMT+3.

We are building two agricultural-therapeutic farms in the Gaza Envelope, **because we're not done yet.**

Chicago Partnership Visit to Shekef Farm

Representatives of the Chicago–Kiryat Gat–Lachish Partnership Steering Committee visited Shekef Farm last week and learned about the extensive social programs taking place at the farm, supported by the Partnership, for youth from the nearby communities of Eliav and Shekef.

The program is led by Anna Tal, Paz Partush, and Hoshea Alexander from the Rimon Farms team. With great appreciation to the team and to all of our partners.

Repairing the Squeeze Press — at Or Haner UJA Farm

Just see the kind of people we have in this country.

A team of volunteers (who asked to remain anonymous), came to Or Haner UJA Farm and restored a 50-year-old scale and squeeze press, bringing them back into full working condition.

A huge thank you to the anonymous donor who contributed work and expertise worth approximately ₪100,000 to repair and restore the press at Or Haner UJA Farm.

Simply incredible.

JNF Netherlands Visits the New Vineyard

We were delighted to host Vivian Rinat, CEO of JNF Netherlands, at our vineyard last week.

Our partners at JNF Netherlands provide invaluable support for our therapeutic programs, and this new vineyard that was planted thanks to this meaningful partnership.

We are grateful to continue strengthening our relationship with JNF Netherlands, a partnership that continues to grow deeper and more impactful over time.

Thank you for your ongoing support, trust, and commitment to our shared vision.

Rimona Café on Channel 13

Our own Yonatan Carmi, who leads **Rimona**, the social café of Rimon Farms, was recently featured on the Channel 13 morning program "Starting the Day".

Rimona Café, located in Be'er Sheva, is one of Rimon Farms' employment programs, operated in partnership with KKL and the "Planting Together" initiative.

The program serves as a unique framework that combines hands-on employment experience, emotional support, and practical life skills, with the goal of providing participants with a strong foundation for successful integration into society and the workforce.

Through meaningful work, personal guidance, and community support, Rimona Café helps young people build confidence, independence, and a brighter future.
